

To: UM Aerospace Engineering Alumni
From: Aerospace Centennial Student Planning Committee, Time Capsule Subcommittee
Subject: Personal Letters for Department Time Capsule

The Aerospace Centennial Student Planning Committee is building a Time Capsule consisting of documents and memorabilia that would showcase the state of the department in 2014. The Time Capsule will be accessed in 2064. The Planning Committee is requesting letters from alumni to be placed within the Time Capsule to showcase the department's alumni in the aerospace industry. Please fill out the following questions if you would like to contribute.

Full Name

Please leave blank if you want to keep your responses anonymous.

Degree

BSE, PhD, etc.

Graduation Year(s)

Enter the year or years you graduated.

UM Background

Please provide a brief explanation of your UM experience, including student organizations and research projects.

Role in Aerospace Industry

Please provide a brief explanation of your role in the Aerospace industry.

Vision for 2064

What is your vision for the Aerospace industry in 2064. What discoveries and inventions will shape the future of aerospace technology? What goals do you want mankind to achieve in space exploration and commercial aviation within the next century? How might your current work help scientists and engineers around the world achieve that goal?

100

years of Aerospace Engineering at Michigan

Student Planning Committee

Personal Remarks

The concluding paragraph is up to you. Offer advice to students and faculty in 2064 or even tell a personal story. Moreover, if you could visit one place in space, what would it be?

Contact Information

This field is optional.

The committee would appreciate receiving your letters by June 30, 2014 to ensure they are properly integrated with the Time Capsule. Furthermore, if you would like to submit additional material for the Time Capsule, such as a published paper, test hardware, or a scale model of a project, please feel free to let us know. Please send completed letters to aero2014-tc@umich.edu. Your support is greatly appreciated.

Sincerely,

Abhinav Dasari Ibrar Fayyaz Ari Porter Josh Synowiec
